Sex therapy to cultivate intimacy & wholeness

As of April 14, 2003, a Federal law (HIPAA) requires that this notice be posted on the website. It contains information about how your protected health information is handled. Please contact me if you have any questions or would like to receive a printed copy of this notice.

Notice of Policies and Practices to Protect the Privacy of Your Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Uses and Disclosures for Treatment, Payment, and Health Care Operations

Kristina J. Whitehead, MS LMFT-Associate, DBA, Village Counseling and Resources, may use or disclose your protected health information (PHI), for treatment, payment, and health care operations purposes with your general consent. To help clarify these terms, here are some definitions:

- "PHI" refers to information in your health record that could identify you.
- "Treatment, Payment and Health Care Operations"

Treatment is when we provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be consultation with another health care provider, such as your family physician or a colleague.

Payment is when we obtain reimbursement for your healthcare. Examples of payment are when we disclose your PHI to your health insurer or billing service to obtain reimbursement for your health care or to determine eligibility or coverage.

Health Care Operations are activities that relate to the performance and operation of our practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination.

- "Use" applies only to activities within our practice such as utilizing information that identifies you.
- "Disclosure" applies to activities outside of our practice, such as releasing, transferring, or providing access to information about you to other parties.

II. Uses and Disclosures Requiring Authorization

We may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An "authorization" is written permission above and beyond the general consent that permits only specific disclosures. In those instances when we are asked for information for purposes outside of treatment, payment and health care operations, we will obtain an authorization from you before releasing this information. We will also need to obtain an authorization before releasing your psychotherapy notes. "Psychotherapy notes" are notes we have made about our conversation regarding a private, group, joint, or family counseling session. These notes are given a greater degree of protection than PHI.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) we have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer the right to contest the claim under the policy.

I will also obtain an authorization from you before using or disclosing:
PHI in a way that is not described in this Notice.

III. Uses and Disclosures with Neither Consent nor Authorization

We may use or disclose PHI without your consent or authorization in the following circumstances:

- Child Abuse: If we have cause to believe that a child has been, or may be, abused, neglected, or sexually abused, we must make a report of such within 48 hours to the Texas Department of Protective and

Regulatory Services, the Texas Youth Commission, or to any local or state law enforcement agency.

- Abuse of the Elderly and Disabled: If we have cause to believe that an elderly or disabled person is in a state of abuse, neglect, or exploitation, we must immediately report such to the Department of Protective and Regulatory Services.
- Sexual Misconduct by a Therapist: If you report to us any situation that constitutes sexual misconduct by a current or former therapist, then we are required to inform the licensing authority of the offending therapist.
- Regulatory Oversight: If a complaint is filed against a therapist with a regulatory authority, they have the authority to subpoena confidential mental health information relevant to that complaint.
- Judicial or Administrative Proceedings: If you are involved in a court proceeding and a request is made for information about your diagnosis and treatment and the records thereof, such information is privileged under state law, and we will not release information, without written authorization from you or your personal or legally appointed representative, or a court order. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.
- Serious Threat to Health or Safety: If we determine that there is a probability of imminent physical injury by you to yourself or others, or there is a probability of immediate mental or emotional injury to you, we may disclose relevant confidential mental health information to medical or law enforcement personnel.
- Worker's Compensation: If you file a worker's compensation claim, we may disclose records relating to your diagnosis and treatment to your employer's insurance carrier.
- When the use and disclosure without your consent or authorization is allowed under other sections of Section 164.512 of the Privacy Rule and the state's confidentiality law. This includes certain narrowly-defined disclosures to law enforcement agencies, to a health oversight agency (such as HHS or a state department of health), to a coroner or medical examiner, for public health purposes relating to disease or FDA-regulated products, or for specialized government functions such as fitness for military duties, eligibility for VA benefits, and national security and intelligence.
